June 10, 2009

Mr. Charles Terreni, Chief Clerk  
South Carolina Public Service Commission  
101 Executive Center Drive  
Synergy Business Center  
Columbia, South Carolina 29210

Dear Mr. Terreni:

Attached for electronic filing are revisions to United Telephone Company of the Carolinas Access Service Tariff. These revisions are submitted with a June 10, 2009 issue date and a proposed effective date of June 17, 2009. Embarq's tariffs are available on its website at [www2.embarq.com/tariffs](http://www2.embarq.com/tariffs).

The tariff pages enclosed for review and approval are as follows:

Table of Contents	1st Revised Page 19.2	Section 17	1st Revised Page 629.10
Section 13	4th Revised Page 532	(Cont'd)	1st Revised Page 629.11
Section 17	3rd Revised Page 620		1st Revised Page 629.12
	2nd Revised Page 629		1st Revised Page 629.13
	1st Revised Page 629.2		1st Revised Page 629.14
	1st Revised Page 629.3		2nd Revised Page 629.15
	1st Revised Page 629.4		2nd Revised Page 629.16
	1st Revised Page 629.5		3rd Revised Page 629.17
	2nd Revised Page 629.6		2nd Revised Page 629.18
	1st Revised Page 629.7		2nd Revised Page 629.19
	1st Revised Page 629.8		2nd Revised Page 629.20
	1st Revised Page 629.9		3rd Revised Page 629.21

This filing proposes to grandfather Physical Collocation service to existing customers and delete Virtual Collocation service from the access tariff. Collocation services are still available to new customers via Embarq's interstate access service tariff or 251 Collocation contract agreements. In addition, this filing removes obsolete tariff language relating to the presubscription change charge application. This change is being made for consistency with Embarq's interstate access service tariff and with others in the industry.

If you have questions or need additional information regarding this filing, please contact Cheryl Sweitzer at (919) 554-7135 or Kristal Myers at (913) 345-7717.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary L. Kepley".

Gary L. Kepley

ACCESS SERVICE TARIFF

ISSUED: June 10, 2009

EFFECTIVE: June 17, 2009

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.3 Presubscription (Cont'd)

(C) Presubscription Charge Application

- (1) New end users or agents, who will be served by end offices equipped with equal access, will be asked to select a primary IC for both intraLATA and interLATA calls or select one (1) IC for their interLATA calls and a different IC or the Company for intraLATA calls at the time they place an order with the Company for Telephone Exchange Service. A confirming notice will be mailed to the new end user or agent when an IC is verbally chosen.

(D)  
—  
(D)

New end users or agents will be offered a list of participating Carriers to aid their selection of primary IC. There will be no charge for this initial selection.

After the end user's or agent's initial primary IC selection, for any change thereafter in selection for an intraLATA IC, interLATA IC or a change in both, a charge, as set forth in (E) following, applies.

ACCESS SERVICE TARIFF

ISSUED: June 10, 2009

EFFECTIVE: June 17, 2009

17. Collocation Services

The Company will provide Collocation Services in conjunction with the Switched Access and Special Access Services provided in 6 and 7 preceding, in conjunction with the Frame Relay Services provided in 18 following and in conjunction with other Company provided interconnection services. Collocation Services are defined as Physical# for local interconnection.

(C)

17.1 Basic Service Description

(A) Physical Collocation#

(C)

Physical Collocation provides an Interconnector\* with enclosed space and associated requirements such as power and environmental conditioning within a Company premises\*\* to locate certain fiber optic, microwave or other wireless facilities and equipment, and a connection to certain Company provided services.

(B) Reserved For Future Use

(C)

(D)

(D)

(C) Rate Categories

Collocation Services consist of the rate categories described generally below. Specific regulations governing the provision of these rate elements are set forth in 17.5 following for Physical Collocation.

(C)

(C)

(1) Application Fee

The Application Fee is a nonrecurring charge that recovers the cost of processing the application for Collocation and provides for the preliminary work needed to determine if Company premises space and facilities are available to meet the Interconnector's collocation request. The Application Fee will be assessed once for each application submitted per Company premises, and is not dependent upon the amount of collocation space requested.

# Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

(N)

(N)

\* For purposes of this Section, the term "Interconnector" is defined as any requesting Telecommunications Carrier per Section 251 of the Telecommunications Act of 1996 and is further explained in FCC Docket No. 96-98, Paragraph 611. Enhanced Service Providers are not covered by this offering as indicated in FCC Docket No. 96-98, Paragraph 581.

\*\* For purposes of this Section, the term "Company premises" includes Company central office, serving wire centers and access tandems, as well as all buildings or similar structures owned or leased by the Company that house Company network facilities.

ACCESS SERVICE TARIFF

ISSUED: June 10, 2009

EFFECTIVE: June 17, 2009

17. Collocation Services (Cont'd)

17.2 Regulations (Cont'd)

- (L) When an existing Company provided High Capacity Service or an existing Multiplexed High Capacity Service is reconfigured into a High Capacity Service under a Collocation arrangement or vice versa, or from one Company provided Collocation arrangement to another within the same Company premises, an Interconnection Rearrangement Charge as set forth in 17.7(A)(25) and (B)(10) following will apply for each service reconfigured.
- (M) The Interconnector shall not assign or transfer its collocation space, either in whole or in part, or permit the use of any part of the premises by any other person or entity, without the written consent of the Company. Any purported assignment or transfer made without such consent may be deemed void by the Company at its option.

(D)

(D)

17.3 Liability

- (A) The Company is not responsible for the compatibility of services provided under this Tariff when used in conjunction with Interconnector provided transport facilities, except to the extent that services and facilities provided by the Company shall comply with industry approved standards.
- (B) The Company is not required to purchase additional land or buildings, relinquish building space forecasted for Company use or undertake the construction of new buildings or expansion of existing buildings in order to satisfy an Interconnector's request for Collocation. When undertaking the renovation of existing facilities, or the construction or lease of new facilities, the Company will take into account Interconnector collocation demand in the same manner in which demand for other services is considered.

ACCESS SERVICE TARIFF

ISSUED: June 10, 2009

EFFECTIVE: June 17, 2009

17. Collocation Services (Cont'd)

17.4 Network Compatibility and Standards

(A) The operating characteristics of customer transport facilities shall not interfere with any Company services and are subject to the provisions that said facilities do not:

- (1) Endanger the safety of Company employees, other Collocation customers or the public;
- (2) Damage or require change or alteration of Company equipment or facilities;
- (3) Interfere with the proper functioning of Company equipment or facilities; or
- (4) Impair the operation of the Company network or otherwise injure any party in its use of Company services.

The Telephone Company reserves the right, with or without notice, to disconnect any Interconnector's transport facilities which are in violation of the provisions in this Section.

(B) The Interconnector is responsible for ensuring continued technical compatibility with the Company network. When changes in standards occur or differences exist between technical references, the Interconnector shall follow the more stringent standard.

17.5 Physical Collocation\*

(C)

(A) The Interconnector shall provide to the Company a written application for the provision of Physical Collocation of fiber optic, microwave or other wireless facilities. The application shall include complete details of the collocation and interconnection requested, including, but not limited to, specific roof space, floor space, power and environmental conditioning requirements. Completed applications must be accompanied by the Application Fee set forth in 17.7(A)(1) following, and will be processed by the Company within thirty (30) days on a first-come, first-served basis. The Interconnector must begin use of the collocated space within six (6) months of the date of the application or other time period mutually agreed to by the Interconnector and the Company, or the space must be relinquished to the Company. The Company may extend the beginning of use beyond the six (6) month period upon a demonstration by the Interconnector that circumstances beyond the Interconnector's control prevented the six (6) month deadline from being met.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

- (B) If collocation space is unavailable or an Interconnector withdraws its request, the Application Fee, less the costs incurred by the Company (e.g., engineering record search and administrative activities required to process the application), will be refunded.
- (C) In situations where collocation space and associated requirements are available, Physical Collocation will be provided by the Company within ninety (90) days, subject to additional time for asbestos removal or extraordinary construction, as specified below:
  - (1) The Company shall permit the Interconnector to initially occupy one hundred (100) square foot increments within the Company premises, up to a maximum of two hundred (200) square feet. If mutually agreed to by the Company and the Interconnector, increments of space less than one hundred (100) square feet will be permitted. For customers requesting collocation space beyond the two hundred (200) square foot maximum, the Company will make every effort to provide additional available space dependent upon other outstanding requests for space. Additional collocation space cannot be reserved by the Interconnector for future use. Collocation Floor Space will be charged for on a per square foot basis as set forth in 17.7(A)(2) following, and includes primary AC power, backup AC power where available, lighting, heating, air conditioning and other environmental support which the Company will provide in the same manner that it provides such support items for its own equipment in the Company premises.
  - (2) For interconnection of microwave or other wireless facilities, the Company will permit the Interconnector to install antenna facilities on the exterior of the Company premises (Roof Space) and make available a path for the Interconnector's waveguide and/or coaxial cable (Riser Space - Per Foot). If an asbestos containing area is opened to facilitate the installation of the Interconnector's facilities, the Interconnector shall pay on a time and material basis for correction of any asbestos related situations. Roof Space will be charged for on a per square foot basis as set forth in 17.7(A)(3) following; the rates for Riser Space - Per Foot are specified in 17.7(A)(13) following.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

EFFECTIVE: June 17, 2009

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

(C) (Cont'd)

- (3) The Company will designate the location in the Company premises where the Interconnector's transmitter/receiver equipment shall be placed. Transmitter/Receiver Space will be charged for on a per square foot basis as set forth in 17.7(A)(4) following and includes primary and backup AC power, lighting, heating, air conditioning and other environmental support which the Company will provide in the same manner such support items are provided for its own equipment in the Company premises. In situations where special work must be completed by the Company to provide emergency power or environmental support to the Interconnector's transmitter/receiver equipment or antenna, the charges will be calculated and billed to the Interconnector on a time and material basis.
- (4) Electricity shall be provided by the Company in sufficient amount to provide ordinary lighting, heating and air conditioning of the collocation space. In addition, the Company shall provide one 15 amperage, 100 volt AC power circuit for the Interconnector's use. In situations where the Interconnector requires higher amperage AC power, the Company will work cooperatively with the Interconnector to ensure that specific power requirements are met. Should the Interconnector require additional electric capacity, such capacity will be supplied by the Company. The Interconnector will pay the Company an additional fee in an amount to be agreed upon by both the Company and the Interconnector at the time of the request.
- (5) The Company reserves the right to monitor the Interconnector's use of electricity to determine if the electricity provided is sufficient to support the Interconnector's collocation space. If the Company determines that the electricity provided to the Interconnector is insufficient to support the Interconnector's collocation space, the Company may require the installation of additional electrical circuits to provide the Interconnector with additional electricity. The Interconnector shall reimburse the Company for any expenses incurred in making such additional electrical circuits available to the Interconnector.
- (6) The Company shall furnish air conditioning and/or other environmental controls for the Interconnector's space in a manner consistent with those provided elsewhere in the building and that responds to the information provided in the Interconnector's application.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

(C) (Cont'd)

- (7) The Company will provide supplementary air conditioning units or other environmental control devices made necessary solely by the Interconnector's equipment or facilities, and the cost thereof shall be paid by the Interconnector to the Company.
- (8) If the Company determines that it is necessary to upgrade the air conditioning and/or other environmental control devices for the building in general, and such upgrade is made necessary by the presence of the Interconnector in the building generally, the cost of such air conditioning units or other environmental control devices shall be allocated between the Company and the Interconnectors which benefit from the upgrades. Such allocation will be based on a ratio of the number of square feet occupied by each Interconnector to the total square feet of the Company premises space being upgraded.
- (9) With the exception of day-to-day equipment additions or modifications with existing frames, the Interconnector shall not make installations, alterations or additions in or to the collocation space without submitting plans or specifications to the Company and securing the prior written consent of the Company in each instance. Consent shall not be unreasonably withheld or unduly delayed for non-structural interior alterations to the collocation space that do not adversely affect the building's appearance, value, structural strength and mechanical integrity. Such work will be done at the sole expense of the Interconnector.
- (10) The Interconnector shall not interconnect equipment or facilities in its collocation space with equipment or facilities within another Interconnector's collocation space by any means other than through Company provided services or facilities. The Interconnector shall not provide or make available to any third party any portion of space or location within its collocation space.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

(C) (Cont'd)

- (11) Collocation is provided for the sole purpose of connecting an Interconnector's transport facilities to other Access or interconnection services offered by the Company, including unbundled local exchange network elements offered to Interconnectors certified as Competitive Local Exchange Service Providers. Connection may only be made with the provision of Collocation and only through the technically feasible interconnection point. The Company will provide at least two (2) separate points of interconnection to the central office where there are two (2) entry points for the Company's cable facilities, except for situations where one (1) entry of a two (2) entry office is filled to capacity. In situations where two (2) entry points are not immediately available, the Company shall perform the work necessary to make separate points of entry available to the Interconnector at the same time it makes such points of entry available for itself. Normal Conduit Space Charges as set forth in 17.7(A)(8) and (9) following will apply per entry point.
- (12) The Company will also provide primary and backup DC Power, at the rates set forth in 17.7(A)(5) following, to the Interconnector's equipment in the same manner that it provides such power to its own equipment within the Company premises.
- (13) The Company shall arrange for the construction of, or allow a mutually agreed upon contractor selected by the Interconnector to construct a secure enclosure around the collocated floor space. The enclosure shall consist of a lockable, eight (8) foot high, wire mesh security fence surrounding the perimeter of the Interconnector's collocation space and shall conform to the standards for health, safety and security to which the Company presently adheres within a Company premises. The rates for Secure Enclosures constructed by the Company are set forth in 17.7(A)(6) and (7) following. In situations where the Company must install environmental support to prepare the space for collocation, the charges will also be calculated and billed to the Interconnector on a time and material basis. A secure enclosure is required for Physical Collocation arrangements.
- (14) Except where the Interconnector purchases unbundled local exchange network transmission elements from the Company, the Interconnector shall bring its fiber optic cable to a manhole or other technically feasible interconnection point and provide sufficient cable length, as mutually determined by the Company and the Interconnector, to extend the cable into the Company premises cable entrance(s)

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

(C) (Cont'd)

- (15) Except where the Interconnector purchases unbundled local exchange network transmission elements from the Company, the Interconnector shall provide fire retardant fiber optic riser cable of sufficient length, as jointly determined by the Company and the Interconnector, to extend from the cable entrance(s) to the designated collocation space.
- (16) The Interconnector shall extend the fiber optic cable from the manhole, or other designated interconnection point, into the Company premises cable vault and splice the cable to the Interconnector provided fire retardant riser cable. The Interconnector shall provide a secure dedicated fire retardant splice enclosure and shall tag all facilities to indicate ownership. The Company shall extend the riser cable through the Company premises and deliver it to the Interconnector's collocation space. The Company shall be responsible for providing conduit space (Conduit Space - Per Foot) and cable vault space with support structures (Conduit Space - Vault) at the rates set forth in 17.7(A)(8) and (9) following.
- (17) The Interconnector shall bring its microwave or other wireless facilities to an interconnection point designated by the Company and extend the cable into the Company premises to the designated collocation space. The Interconnector shall tag all facilities to indicate ownership. The Company shall be responsible for providing conduit space (Riser Space - Per Foot) at the rates set forth in 17.7(A)(13) following.
- (18) The Company shall designate a point of connection (Cross-Connect) where its network connects with the Interconnector's transport facilities in the collocation space. The point of connection defines the physical demarcation between the Interconnector's transport facilities and the Company's network. The Company will provide a Cross-Connect at the rates specified in 17.7(A)(10) through (12) following. The Interconnector is responsible for optical to electrical or speed conversions, multiplexing or any other change required to connect the Interconnector's transport facilities to Company equipment and facilities at compatible interfaces, levels or speeds.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

(C) (Cont'd)

(19) When the Interconnector orders a DS3, DS1 or Optical Cross-Connect for use with Switched Access Services, the Interconnector must also order appropriate Multiplexing. DS3 to DS1 Multiplexing provides an arrangement that Multiplexes a single DS3 Digital circuit at a rate of 44.736 Mbps to twenty-eight (28) DS1 Digital circuits. DS1 to DS0 Multiplexing provides an arrangement that Multiplexes a single DS1 Digital circuit at a rate of 1.544 Mbps to twenty-four (24) DS0 Digital circuits. The rates for DS3 to DS1 and DS1 to DS0 Multiplexing are set forth in 6.8.2(D) preceding.

(20) The Company will permit the Interconnector to locate certain transmission equipment within the Interconnector's collocated space in the Company premises including, but not limited to:

- Optical Line Terminating Multiplexers
- Central Office Multiplexers
- Digital Cross-Connect Panels
- Optical Cross-Connect Panels
- Digital Loop Carrier

Transmission equipment not specifically identified above may be located within the Interconnector's collocated space upon written approval from the Company. In the event of a dispute regarding the placement of an Interconnector's transmission equipment within the Interconnector's collocation space, the Company shall prove to the state commission that such equipment is not necessary. Except for equipment that meets the standards that the Company applies to its own equipment and that is used for interconnecting to unbundled local exchange network elements, switching equipment may not be located within the Interconnector's collocated space. Should the Interconnector require the placement of integrated equipment (i.e., transmission and switching functionality), the Company will allow such placement upon certification by the Interconnector that, except for the purpose of providing multiplexing and/or signal aggregation functionality between the Company's network or unbundled network elements and the Interconnector's transmission facilities, the switching functionality will not be used and the device will be used only to terminate or aggregate basic transmission facilities.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

17. Collocation Services (Cont'd)

17.5 Physical Collocation\* (Cont'd)

(C)

- (D) The Company shall permit the Interconnector's authorized employees, agents and contractors to have access to the Interconnector's cable, associated equipment and collocation space at all reasonable times, provided that the Interconnector's employees, agents and contractors comply with Company policies and practices pertaining to work stoppages, fire, safety and security. The Interconnector's authorized employees, agents and contractors must be accompanied by a Security Escort from the time of entry to a Company premises to the time of departure, including time spent in common areas such as restrooms. When such security is provided by authorized Company personnel, the Interconnector will be charged in accordance with the Additional Labor provisions set forth in 13.2 preceding. When a third party security agent is employed, the associated charges will be billed to the Interconnector on a pass through basis. With the exception of emergency situations, the Interconnector must provide at least twenty-four (24) hours notice of its intent to enter the Company premises.
- (E) The Company reserves the right to inspect the Interconnector's complete installation of equipment and facilities, and to make subsequent and periodic inspections of the Interconnector's equipment and facilities occupying collocation space and associated entrance conduit and riser space. If the Interconnector is found to be in noncompliance with the terms and conditions set forth in this Section, the Interconnector will be required to modify its installations to ensure compliance. The Company will notify the Interconnector in advance of such inspections, and the Interconnector shall have the right to be present at the time of inspection.
- (F) The Interconnector will provide the Company with access to the collocation space at all times to allow the Company to react to emergencies, provide services and inspect for compliance with fire, safety and health regulations or standards.
- (G) For all Interconnector work performed or installed in Company conduit systems, Company premises outside the collocation space or other Company locations used by other parties, the Company reserves the right to:
  - (1) Require, at the Company's sole discretion, a Security Escort chargeable to the Interconnector. The Additional Labor Charges set forth in 13.2 preceding will apply for Security Escort Services provided by the Company.
  - (2) Prohibit the placement of any and all equipment or facilities other than cable in Company owned or controlled areas.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

(G) (Cont'd)

- (3) Designate the location of cable splices.
  - (4) Approve all installations.
  - (5) Require that the Interconnector, at its sole expense, obtain any necessary right-of-way or other permits.
- (H) The Interconnector is subject to recurring and/or nonrecurring rates and charges for the use of Company owned or controlled space and facilities, and for installation work functions provided by the Company. The rates and charges associated with Physical Collocation are set forth in 17.7(A) following. Nonrecurring charges for Additional Engineering and Labor incurred by the Company will be calculated on a time and material basis as specified in 13. preceding.
- (I) At the Company's option, the Company may provide facilities or equipment including, but not limited to, conduit, riser supports and termination frames, in such a fashion that the facilities or equipment is shared or used in common with other parties. Requests by an Interconnector for dedicated or special arrangements may result in additional charges.
- (J) If mutually agreed to by the Company and the Interconnector, the Company will perform Interconnector installation and/or maintenance work functions for an additional fee. The Company will be responsible for all maintenance and related activities on the Company side of the space. Company provided mechanical or fusion splices and other installation functions will be performed using methods consistent with Company practices. The charges for installation work functions performed by the Company on behalf of the Interconnector will be calculated on a time and material basis as specified in 13. preceding.
- (K) In the event the Company determines that it is necessary for the Interconnector to move its collocated space within a Company premises or to another Company premises, the Interconnector is required to comply. The Company is responsible for the costs associated with the removal, transport and reinstallation of the Interconnector's equipment within the Company premises.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.

- (L) Should the Interconnector request that its collocated space be moved within the Company premises or to another Company premises, the Company will permit the Interconnector to relocate its collocated space, subject to the availability of space and associated requirements. The Interconnector is solely responsible for the costs associated with the preparation of new collocated space at the new location and for the removal, transport and reinstallation of its equipment.
- (M) The Company and the Interconnector are each responsible for notifying the other of significant outages which could impact or degrade either party's network and services, and provide estimated clearing time for restoral. The Company and the Interconnector are responsible for testing, cooperatively if necessary, to identify and clear a trouble when the trouble has been sectionalized to the portion of the service each provides.
- (N) If trouble detected by or reported to the Company results in the Company dispatching its employees to the Interconnector's collocation space and the trouble is not caused by Company equipment or facilities, the Interconnector will be so notified and will be liable for the Maintenance of Service Charge as specified in 13.3.1 preceding.
- (O) The Interconnector and Company are each responsible for providing to the other a contact list of technical personnel accessible twenty-four (24) hours a day, seven (7) days a week.
- (P) In the event that the Interconnector's use of its microwave or other wireless systems cause broadcast interference, the Company, at its sole discretion, shall have the right to cause the Interconnector to cease the operation of its system until such broadcast interference can be corrected. The Company shall incur no liability to the Interconnector or any other person as a result of ordering the Interconnector to cease using its system in accordance with the foregoing.
- (Q) Upon disconnection of service, the Interconnector shall, at its expense, disconnect and remove all Interconnector facilities and equipment from the collocation space and from all other Company owned or controlled areas in the Company premises in which the Company has allowed the Interconnector to place facilities and equipment.

\* Effective June 17, 2009, Physical Collocation will no longer be available to new customers requesting new arrangements at new locations. Physical Collocation is limited to existing customers purchasing Physical Collocation service as of June 17, 2009 at offices where they currently exist.
